Hat Usage Behavior Data (54 respondents, 2013)

Pictures of Hats (Responsive Layout)

Below are some nice pictire of hats and caps, license-free amages downloaded from the website Top. These images are placed in a single bootstrap row g-2 (where the g-2 adds a gutter size 2 between the images) composed of columns using a combines col-sm-4 col-12. The col-sm-4 forces 3 images to be in a row on all screen sizes except very small ones (<576px) where the col-12 forces the images to use all 12 columns grid units and stack each image on top of each other. Each image has the class img-fluid applied to it, allowing it to resize to the size of the column.

To

Hat Stories

The following three **images and text** are each held within div block that the class attributes p-4 mb-4 bg-primary-subtle rounded, to set the padding, margin-below, background colour and corner shape, respectively. Each **Image & Text** holds a row, with the text assigned to 7 column units col-sm-7 and the image is assigned to col-sm-5; allowing the text and images to span 5 and 7 column units respectively on screens greater than 576px units. Added to each of these two columns is the col-12, which says when the screen is smaller than 576px, it will then use all 12 columns grids for each image and text, allowing them to be stacked on top of each other.

Sun Hats by Adrian Siaril

Here, the class imp-fluid rounded has been applied to the image. The title above uses piclass="lead" to make the
